PROFILE

Senior Designer with over 10 years' experience across legal, professional services, sustainability and motorsport, taking briefs from first idea to launch across brand, campaign, digital and motion. At Kennedys I guard the brand system for a global law firm, work as second-in-command to the Brand & Design Manager, brief an external creative agency and mentor a junior designer. I stay hands-on, and I built the firm's in-house video and motion capability from close to nothing. I use AI as a first draft, never the final word: I built a production pipeline with Claude and Kling and connected Claude directly into InDesign and Photoshop, while brand judgement and final polish stay with me.

CORE EXPERTISE

- Brand Systems, Guidelines & Consistency Across Global Markets
- Integrated Campaigns Across Print, Digital, Social & Motion
- In-House Video & Motion Production, Concept Through to Delivery
- Large-Format Print, Exhibition & Event Design
- Presenting Creative Thinking to Senior Partners & Stakeholders
- Briefing & Managing External Creative Agencies
- AI-Assisted Production: Claude (integrated into InDesign & Photoshop), Claude Code, Kling, Midjourney, Adobe Firefly, ChatGPT
- Adobe Creative Suite & Figma

PROFESSIONAL EXPERIENCE

Senior Designer | Kennedys Law LLP, London, UK

Jan 2023 to Present

- Take ownership of complex briefs from first idea to launch across brand, campaign, digital, social and motion for a global, multi-territory organisation, staying hands-on from concept to final delivery
- Guard the brand system across every market and touchpoint, keeping output consistent from one office to the next
- Operate as second-in-command to the Brand & Design Manager; when the manager is out, the rest of the team comes to me directly
- Present creative concepts and rationale directly to senior partners and stakeholders, explaining how each decision connects back to the brief
- Brief and review work from Westgate, our external creative agency, holding it to the firm's brand and quality standards
- Build and embed reusable templates, toolkits and design systems that keep work consistent and faster to produce without lowering quality
- Design and produce large-format print and event assets, including exhibition stands and event backdrops
- Built the firm's in-house video and motion production capability from close to nothing
- Built an AI-assisted production pipeline using Claude and Kling, and connected Claude directly into Adobe InDesign and Photoshop to speed up production; also use Midjourney, Adobe Firefly and ChatGPT
- Mentor a junior designer day to day, giving constructive feedback that raises the standard of their work

Graphic Designer (Senior Designer level) | Lane Clark & Peacock LLP, London, UK

Mar 2020 to Dec 2022

- Delivered bespoke client design work for named clients including HSBC and the Church of England, taking briefs from concept through to final delivery
- Led on integrated campaign assets across digital reports, presentations, microsites, motion content and event branding
- Took the careers hub and landing pages from brief through to a shipped website, working directly with developers
- Built interactive, web-ready documents using Foleon, designing for clarity and quick understanding on mobile
- Mentored junior designers and kept an eye on creative quality across the wider project load

Graphic Designer (Lead Designer level) | Carbon Clean UK, London, UK
Jan 2019 to Jan 2020

- Held the responsibility of a Lead Designer while creating a full brand identity from blank page, rebuilding the company's visual identity from the ground up
- Built visual systems that carried across sales materials, social campaigns, motion content and digital platforms without falling apart between formats
- Designed presentations, print and activation materials for international exhibitions in Dubai, Italy and Las Vegas, translating creative from screen to physical stand
- Produced motion and video assets to strengthen the brand's storytelling and engagement

Marketing Designer | The Motorsport Network, London, UK
Jan 2018 to Jan 2019

- Designed digital adverts for F1 and produced video campaigns for Silverstone, delivering culturally relevant, high-profile creative under tight deadlines
- Ran A/B tests on paid ad creative for events including Autosport International, iterating copy, CTAs and video hooks to grow subscriptions
- Produced digital and social assets to grow subscriptions across multiple global media brands
- Delivered print and digital collateral for high-profile events and campaigns, managing multiple briefs at once

In-House Designer | FitFuelUK, London, UK
Jul 2016 to Dec 2017

- Owned visual direction across packaging, social media, retail collateral and digital campaigns for a consumer health brand
- Designed web layouts and worked directly with developers on UX decisions
- Created branded and illustrated content to support partnerships and brand growth
- Managed a varied, fast-moving workload across print and digital, from packaging through to social content

Graphic Designer | Bounts Limited, London, UK
Jun 2015 to Jun 2016

- Led branding and UI design for the WellCarrot app from the ground up, including logo development, visual identity and interface layouts
- Produced marketing and promotional assets across digital and print to support app launch and growth
- Worked closely with the product team so the visual identity carried consistently from brand assets through to the live product

FREELANCE & CONTRACT WORK

- **Quikly**, freelance: created a full brand identity from blank page for a fashion e-commerce platform, including logo, colour palette, typography and UI design principles, built to scale across a crowded market
- **Maersk** (via Speak First), Feb 2022: designed a series of training booklets for the early careers recruitment programme

SKILLS

Design Software: Photoshop, Illustrator, InDesign, After Effects, Premiere Pro, Figma, Adobe XD
AI & Emerging Tech: Claude (integrated into InDesign & Photoshop), Claude Code, Kling, Midjourney, Adobe Firefly, ChatGPT

EDUCATION

University of Lincoln, BA (Hons) Product Design, 2:1, 2013
